

## Glazed Thin Brick

We fire ceramic glazes over our Thin Brick to create a product line that blends the beauty of ceramic tile with the strength and utility of brick.

**Applications:** Glazed Thin Brick are ideal for interiors and exteriors of both residential and commercial construction. They have a hard, durable and cleanable surface, which makes them perfect for entryways, restaurants, kitchens, and bathrooms. Glazed Thin Brick can also create accent walls, or be used as accents within traditional Thin Brick construction, such as to frame windows and doorways, or as colored bands or quoins. Glazed Thin Brick provide a richly pigmented, durable, low-maintenance, graffiti-resistant surface.

**Sizes and Shapes:** McNear Glazed Thin Brick can be ordered in all our Thin Brick sizes and shapes, including Corners and Caps.

**Colors:** While starting with a standard palette of colors, we have the ability to produce or match virtually any color.

**Texture:** Our Glazed Thin Brick are created from actual clay brick, and they incorporate the subtle marks and textures that are clay brick's hallmark. Glazed Thin Brick are typically produced on flat, square-edged bricks, but we also have the ability to glaze our distinctive Sandmold textures.

Ash	Heather
Avocado	Jade
