Sandmolds for Landscapes

Our distinctive Sandmold Series is now available as Pavers (2-7/16” thick), Split Pavers (1-1/4” thick), Thin Pavers (5/8” thick), and matching Bullnoses for stair treads, pool copings, and wall caps.

Franciscan Bullnose and Cap

The classic S-curve of the Franciscan Bullnose adds stylistic appeal while providing superior performance. As a pool coping, the Franciscan Bullnose is easier to grasp (especially for a child’s smaller hand), and its more pronounced corner gives it an extra degree of traction and stability when used as a stair tread.
Landscaping with Brick

McNear Brick & Block’s roots go back to 1868, making us one of the country’s oldest brick manufacturers. We produce a broad selection of Face Brick, Thin Brick, and Brick Pavers in colors and textures ranging from the soft, handmade look of our Sandmold Series, to the “reclaimed” aesthetic of our Old California Series, to the vibrant, sharp colors and edges of our Commercial Series. In addition to the products shown within these pages, we have the capability of manufacturing custom blends, shapes, and colors. All the colors depicted herein are available as Brick Pavers, Face Brick, and Thin Brick. McNear Brick Pavers meet the standards of ASTM C902, Class SX, and McNear Face Brick and Thin Brick meet the standards of ASTM C216 and C1088, Grade SW.

McNear Clay Brick are manufactured with 30-100% Post-consumer, Recycled Content.

Thin Brick in Landscape Construction

It is often more efficient and cost-effective to build landscape features from other materials, and then to veneer them with Thin Brick. This is true for both walls and pavements, and the underlying structure need not be new construction. Thin Brick can be applied to existing concrete driveways, stairs, and porches, bestowing the rich look of brick while keeping costs under control.

Thin Brick gives multitudes of benefits without sacrificing any of the durability, low maintenance, beauty, and value of traditional brick construction. See our Clay Brick/Thin Brick brochure for more details.

Sandmold

While created with the strength and durability of the most modern manufacturing processes, our Sandmolds are nearly indistinguishable from actual hand-made bricks. Their time-worn appearance, softened edges, and rich colors give new construction an immediate veneer of age.

Available in:

- Solid/Paver
- Bullnose
- Split Paver
- Coping
- Thin Paver
- Tread
- Face Brick

Old California

For thousands of years, bricks have been reclaimed from one structure for use in another. Each use and re-use adds its mark: mortar, plaster, chipped edges, and stains. The Old California Series incorporates a variety of different color schemes, representing the wide range of true reclaimed bricks.

Available in:
• Solid/Paver
• Split Paver
• Thin Paver
• Face Brick
• Bullnose
• Coping
• Cap
• Tread

Beauty and Sustainability

When we opened our doors in 1868, our workers made bricks by hand and used wheelbarrows to load them onto scow schooners for delivery to the many small ports lining San Francisco Bay.

The days of horse and sail are long gone, but the landmarks built with our products, such as Ghirardelli Square and the Golden Gate Bridge, remain. So too, does our commitment to beauty and durability.

McNear Clay Brick are manufactured with 30-100% Post-consumer, Recycled Content.

See Our Other Lines of McNear Products

Besides our full lines of Face Brick, Thin Brick, and Brick Pavers, McNear Brick & Block is a leading regional manufacturer of Interlocking Pavers and VERSA-LOK® Retaining Walls.

Visit us online at www.mcnear.com to download or request brochures and samples, and to see our newest colors and products.
