Concrete Interlocking Pavers

FEB 2017
Check Out Our New Online Paver Design Tool

McNear has taken the guesswork out of your Paver projects with our new online Paver Design Tool.

This imaging software is easy to use and will provide you with a virtual peek into the finished look of your home’s hardscaping. Simply choose a sample digital photo to resurface and select any style of McNear paver. Within seconds, you’ll be able to see images of the property with McNear Pavers in most of our available textures, colors, and patterns.

You can also request a Virtual Imaging for Paving Stones & Retaining Walls CD. The results are amazingly realistic and will give you confidence when choosing your new hardscaping.

Go to www.mcnear.com to use our online Paver Design Tool or choose Request Materials to order a CD.

Need help planning your home project?

Visit our Website

We work with a number of design and builder professionals who can help you design your project, estimate the materials you’ll need and do the work for you.

Visit us online at www.mcnear.com and go to the Request a Quote page. We’ll recommend an experienced, reliable and trustworthy designer or installer to help you.

You can also find more photos and information about all our McNear product lines at www.mcnear.com.

Concrete Interlocking Pavers

The Romans perfected interlocking cobblestone pavements over 2000 years ago, and many of their roads are still in good shape. Today, Interlocking Pavers made from modern high-strength concrete are used in the same fashion to create beautiful and durable pavements.

McNear Interlocking Pavers are renowned for their rich color blends and beautiful finishes. Our pavers come in a myriad of colors, shapes, and stone textures, and are complemented by design details such as circle kits, pool copings, and one-inch thick veneers.

Any surface that you might consider paving can be adorned with McNear Interlocking Pavers. Common applications include driveways, patios, pathways, and pool areas. Unlike poured concrete and asphalt pavements, interlocking pavements remain flexible and create a beautiful and crack-proof surface.

Whether you prefer an Old World look or a clean, modern design, McNear Brick and Block has crafted interlocking pavers that fit your personal style.

Table of Contents

Heal the earth while you beautify your home

McNear Permeable Pavers are engineered to support the water cycle. They reduce storm drain runoff and filter out water-born pollutants as rain water is returned to the earth naturally.

Our Permeable Pavers incorporate the same aesthetic and design features as our standard interlocking pavers, using multiple shapes and small gaps to preserve their natural appeal.

- Save money by reducing or eliminating your need for storm drains or catch basins
- Recharge the aquifer and help increase supplies of local drinking water
- Improve the water quality of streams and creeks
- Reduce storm water runoff and flooding problems
- Work in harmony with your home’s natural vegetation and landscaping
- Worry less with pavers that are both durable and earth-friendly.
Permeable Pavers can be ordered in any color of Slatestone or Cobblestone, however, we do not stock any Permeable Pavers, and minimum orders may apply.

Visit www.mcnear.com to see our newest products and colors.
Circle Paver Kits

Transform an ordinary driveway, pathway or patio into a work of art by accenting it with a circular paving stone design.

Our Circle Paver Kits are available in Slatestone, Cobblestone and Belgian Cobble textures. Call for availability of specific colors.

A. Charcoal/Tan with Belgian Cobble field pavers in Golden Tan
B. Charcoal/Tan and Golden Tan blend with Slatestone field pavers and Concrete Bullnose in a Charcoal/Tan and Golden Tan blend
C. Charcoal/Tan Slatestone circle pavers with Weathered Mosaic retaining wall in Shasta

Please refer to pages 17-20 for information on patterns, size & coverage.

See pages 3-4 for Slatestone pavers, pages 5-6 for Belgian Cobble pavers and page 15-16 for Concrete Bullnose. See the McNear Retaining Walls brochure for more information on Weathered Mosaic retaining walls.
1-Inch Pavers

McNear 1-Inch Pavers are ideal for applications where full-depth pavers are impractical. Use them to cover existing porches and stairs, and to face concrete curbs and gutters. McNear 1-Inch Pavers can be installed using either mortar or sand-set techniques.

1-Inch pavers can be ordered in any of our shapes, styles and colors, including Bullnose pieces. Custom thicknesses are also available.
Bullnose

The ideal finisher to your landscaping—our Bullnose Pavers complement any McNear product while adding a polished look to your stairway, driveway, pathway, or swimming pool.

Bullnose pavers are available in Classic and Weathered textures. McNear’s Classic texture retains a smooth, contemporary surface. If you prefer rustic landscaping, our Weathered texture is tumbled to create a rough yet charming, time worn feel.

A. Weathered Charcoal/Gray, Charcoal/Tan, and Golden Tan blend with Slatestone pavers and Slatestone Circle pavers in the same blend
B. Weathered Golden Tan with Slatestone pavers in a Terra Cotta and Golden Tan blend
C. Tan/Brown with Torino Slatestone pavers
D. Tan/Brown with Torino Slatestone pavers
E. Weathered Golden Tan with Slatestone pavers in a Terra Cotta and Golden Tan blend

Call for availability of specific colors.

Please refer to pages 17-20 for information on patterns, size & coverage.

See pages 3-4 for Slatestone pavers and page 13 for Slatestone Circle pavers.

Beauty and Sustainability

When we opened our doors in 1868, our workers made bricks by hand and used wheelbarrows to load them onto scow schooners for delivery to the many small ports lining San Francisco Bay.

The days of horse and sail are long gone, but the landmarks built with our products, such as Ghirardelli Square and the Golden Gate Bridge, remain.

Today we manufacture many more products than the clay bricks we started with. McNear is now a leading regional manufacturer of Interlocking Pavers, as well as the VERSA-LOK® family of Segmental Retaining Walls.

Don’t forget to consider McNear Clay Brick as your interlocking pavement! See our many new colors and textures in our Landscaping with Brick brochure.
