# Concrete Interlocking Pavers

The Romans perfected interlocking cobblestone pavements over 2000 years ago, and many of their roads are still in good shape. Today, Interlocking Pavers made from modern high-strength concrete are used in the same fashion to create beautiful and durable pavements.

McNear Interlocking Pavers are renowned for their rich color blends and beautiful finishes. Our pavers come in a myriad of colors, shapes, and stone textures, and are complemented by design details such as circle kits, pool copings, and one-inch thick veneers.

Any surface that you might consider paving can be adorned with McNear Interlocking Pavers. Common applications include driveways, patios, pathways, and pool areas. Unlike poured concrete and asphalt pavements, interlocking pavements remain flexible and create a beautiful and crack-proof surface.

Whether you prefer an Old World look or a clean, modern design, McNear Brick and Block has crafted interlocking pavers that fit your personal style.

Charcoal/Gray

## Slatestone

Slatestone's smooth, layered surface will add the beauty of natural stone to your driveway, patio, or walkway. Use up to four different paver shapes to create either complex or simple designs.

Pavers can be ordered in any of our colors, but for non-stock colors, there may be minimum order requirements and/or set-up charges. Contact our office for a quote.

Please refer to pages 18-20 for information on patterns, sizes, coverage, and circle kits. Permeable Slatestone is also available; see pages 10-11.

## Slatestone Backside

For those interested in a flatter paving surface than our Slatestone texture, we have a solution that has been hidden in plain sight: *Slatestone Backside*. This surface is achieved by installing Slatestone pavers upside-down, and exposing their "backsides". While the Backside surfaces are substantially flat, they are not perfectly so: each paver reflects the subtle scars and wear from our production boards' many years of use. And these pavers also go through a tumbling process that adds an additional patina of age.

*Pavers can be ordered in any of our colors, but for non-stock colors, there may be minimum order requirements and/or set-up charges. Contact our office for a quote.*

Please refer to pages 18-20 for information on patterns, sizes, coverage, and circle kits. Permeable Slatestone Backside is also available; see pages 10-11.

Permeable Cobblestone,  
Color: Olivine

## Heal the earth while you beautify your home

McNear Permeable Pavers are engineered to support the water cycle. They reduce storm drain runoff and filter out water-borne pollutants as rain water is returned to the earth naturally.

Our Permeable Pavers incorporate the same aesthetic and design features as our standard interlocking pavers, using multiple shapes and small gaps to preserve their natural appeal.

- Save money by reducing or eliminating your need for storm drains or catch basins
- Recharge the aquifer and help increase supplies of local drinking water
- Improve the water quality of streams and creeks
- Reduce storm water runoff and flooding problems
- Work in harmony with your home's natural vegetation and landscaping
- Worry less with pavers that are both durable and earth-friendly.

Permeable Slatestone,  
Color: Tan/Brown

Pavers can be ordered in any of our colors, but for non-stock colors, there may be minimum order requirements and/or set-up charges. Contact our office for a quote.

Please refer to pages 18-19 for information on patterns, size & coverage.

Permeable Pavers can be ordered in any color of Slatestone, Slatestone Backside, Cobblestone, and Cobblestone Backside, however we do not stock any Permeable Pavers, and minimum orders may apply.

## Belgian Cobble

You might not live in Europe, but you can replicate that classic Old World appeal for your home. *Belgian Cobble's* timeworn texture radiates warmth and charm, and is available in four different paver sizes.

Please refer to pages 18-20 for information on patterns, sizes, coverage, and circle kits.

Pavers can be ordered in any of our colors, but for non-stock colors, there may be minimum order requirements and/or set-up charges. Contact our office for a quote.

Charcoal / Tan

## Old County Cobblestone

Capture the essence of ancient cobble streets curving through scenic villages. *Old County Cobblestone* can add a touch of serenity to any style of architecture whether you prefer a rustic or modern aesthetic.

Please refer to pages 18-19 for information on patterns, size & coverage.

Charcoal / Tan

Charcoal / Gray

## Circle Paver Kits

Transform an ordinary driveway, pathway or patio into a work of art by accenting it with a circular paving stone design.

Our *Circle Paver Kits* are available in Slatestone, Cobblestone and Belgian Cobble textures.

Call for availability of specific colors.

- A. Charcoal/Tan with Belgian Cobble field pavers in Golden Tan
- B. Charcoal/Tan and Golden Tan blend with Slatestone field pavers and Concrete Bullnose in a Charcoal/Tan and Golden Tan blend
- C. Charcoal/Tan Slatestone circle pavers with Weathered Mosaic retaining wall in Shasta

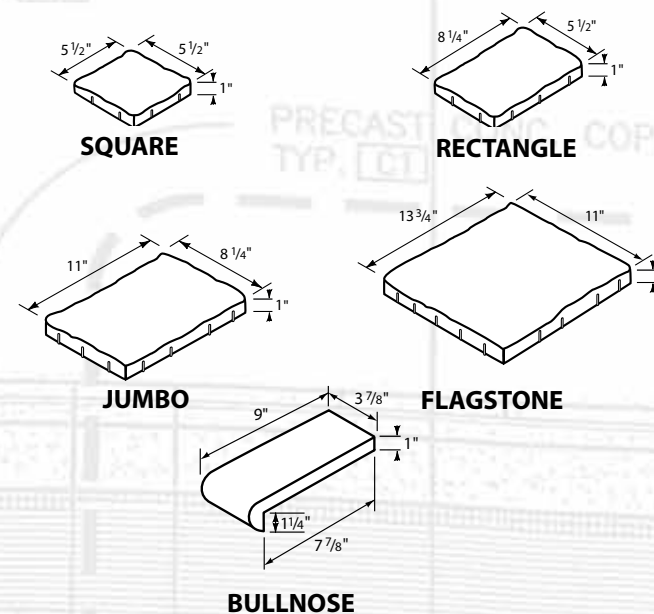

Please refer to pages 18-19 for information on patterns, size & coverage.

See pages 2-5 for Slatestone pavers, pages 12-13 for Belgian Cobble pavers and page 16-17 for Concrete Bullnose. See the McNear Retaining Walls brochure for more information on Weathered Mosaic retaining walls.

## 1-Inch Pavers

McNear 1-Inch Pavers are ideal for applications where full-depth pavers are impractical. Use them to cover existing porches and stairs, and to face concrete curbs and gutters. McNear 1-Inch Pavers can be installed using either mortar or sand-set techniques.

1-Inch pavers can be ordered in any of our shapes, styles and colors, including Bullnose pieces. Custom thicknesses are also available.

1-Inch Cobblestone, Color: Napa

1-Inch Bullnose, Color: Charcoal/Tan

# Bullnose

## Bullnose

The ideal finisher to your landscaping—our *Bullnose Pavers* complement any McNear product while adding a polished look to your stairway, driveway, pathway, or swimming pool.

Bullnose pavers are available in Classic and Weathered textures. McNear's Classic texture retains a smooth, contemporary surface. If you prefer rustic landscaping, our Weathered texture is tumbled to create a rough yet charming, time worn feel.

Charcoal / Gray (Classic)

Charcoal / Tan (Weathered)

Call for availability of specific colors.

Please refer to pages 18-19 for information on patterns, size & coverage.

See pages 2-5 for Slatestone pavers and page 14 for Slatestone Circle pavers.

## Beauty and Sustainability

When we opened our doors in 1868, our workers made bricks by hand and used wheelbarrows to load them onto scow schooners for delivery to the many small ports lining San Francisco Bay.

The days of horse and sail are long gone, but the landmarks built with our products, such as Ghirardelli Square and the Golden Gate Bridge, remain.

Today we manufacture many more products than the clay bricks we started with. McNear is now a leading regional manufacturer of Interlocking Pavers, as well as the VERSA-LOK® family of Segmental Retaining Walls.
